 **MADE IN BRITAIN**

Alupanel IMPACT is the strategic ACP panel designed for high-volume sign, print, and display projects where cost-competitiveness against lower cost panels is essential.

Positioned with a robust 0.18mm thick surface between the Alupanel Lite and X ranges, this 3mm panel offers enhanced stability for flat-mount signage and everyday graphics without the expense of a premium product. Manufactured in Britain with a 100% recycled core, to the same C class EU fire rating, protected by our trusted easy peel liner, Alupanel IMPACT provides a reliable, flat substrate that ensures consistent ink adhesion and a professional finish for short-to-medium-term installations.

Available in 1250x2550mm and 1500x3050mm dimensions, IMPACT features our renowned digital matt surface to optimize performance for direct-to-substrate printing and general signage. This range aids customers in the securing of larger contracts by offering the recognized quality of a UK-made product at a price point that meets the pressures of the current market. It is the dependable choice for high-volume display work that simply needs to "get the job done" with efficiency and value.

Applications:

- Printing direct
- Sign making
- Wayfinding
- POS displays
- Shop-fitting
- Outdoor advertising
- Exhibition design

Available in our signature digital Signal White matt digital finish.

Easy-peel protective film designed to protect the panel
