MULTISHIELD

galvanised steel composite sheets

A double-sided composite panel offering greater strength and rigidity, Multishield's galvanised steel sheets have two different coatings and are also receptive to magnetic media. Now available in either digital/digital or digital/whiteboard finishes.

Strong
and durable
galvanised
steel

- ◆ Strong & durable
- ◆ Magnetically receptive surface
- ◆ Whiteboard finish
- ◆ Specially developed digital coating
- ◆ 5 year guarantee*

MADE IN BRITAIN 

The Steel Standard for whiteboards & Interactive Surfaces

One panel. Three functions. Multishield is Multipanel UK's unique galvanised steel composite panel — engineered to deliver a dry-erase whiteboard surface, magnetic media capability, and a print-ready substrate in a single, professionally manufactured panel.

Replace three separate products with one robust, flat surface that can be written on, printed on, and used with magnetic overlays — enabling dynamic, updateable display systems for retail, education, corporate, and industrial environments.

Rigid, durable, and available with a digital print-optimised surface for fixed graphic backgrounds combined with changeable magnetic content, Multishield turns any wall into a functional, flexible workspace.

*Multishield has a 5-yr warranty for internal use only

Applications

- White boards
- Printing direct
- Sign making
- POS Displays
- Transport
- Industrial production
- Industrial shadowboards

SKIN
0.25mm surface

CORE
100% recycled
LDPE

ADHESIVE
Co-extruded with
the core for a
superior bond

FINISH
A choice of Digital
coating to help
produce vibrant
colour-fast prints or
dry wipe
whiteboard coating

FILM
Low-tack easy-peel
protective film

Property

Property	3	6
Panel thickness (mm)	3	6
Skin (mm)	0.25	0.25
Weight (kg/m ²)	6.35	9.37
Finish	Digital / whiteboard	
Core composition	100% Recycled LDPE	

Sheet sizes

Width	Length
1220	2440/3050
